Consultation on the proposal to extend the age range of Ormiston Latimer Academy and establish Ormiston Latimer Academy Primary

As part of the Royal Borough of Kensington and Chelsea's commitment to strengthening local specialist provision, plans are now being taken forward to extend the age range of Ormiston Latimer Academy (OLA) from 11–16 to 5–16, enabling the Oak Wood Primary Satellite Provision to become Ormiston Latimer Academy Primary. This development will bring primary and secondary specialist provision together within a single local academy, creating a more coherent educational pathway for pupils and families and strengthening the alignment of specialist provision across the borough.

The proposed changes are intended to:

- **Strengthen local accountability** through leadership by a Kensington and Chelsea-based academy.
- **Improve continuity for pupils** by creating a clear pathway from primary to secondary specialist provision.
- **Develop a sustainable local model** of specialist education that increases capacity within the borough.
- **Support SEND and Alternative Provision priorities** by promoting inclusion, early intervention and successful outcomes.
- **Ensure effective use of resources** and maximise the impact of High Needs funding.

Importantly, these proposals relate to leadership, governance, and the future identity of the provision. The provision will remain at its current location, and pupils will continue to receive the high-quality support, care and education that they currently benefit from.

The move to Ormiston Latimer Academy Primary represents an important next step in the development of specialist provision within the borough. It will strengthen the connection between primary and secondary phases, embed the provision within a local specialist academy, and support our shared ambition to provide the very best educational experience for children and young people with additional needs.

The consultation will run for **three weeks from Monday 23 November until Sunday 13 December**. We are keen to hear the views of parents, carers, staff and stakeholders as we move forward with these proposals.
